b. DE18002 - Arizona Department of Economic Security Exhibit 2 **End User Device Refresh**

In order to maintain current technology, it is necessary to upgrade computers, laptops, monitors and printers when they have outlived their usefulness or circumstances require appropriate changes.

c. CH17002 – CHILDS Replacement Project and Demonstration **Arizona Department of Child Safety (DCS) Exhibit 3**

As part of the core functions, the Arizona Department of Child Safety (DCS) caseworkers spend time to ensure the safety of children, strengthen families, and achieve permanency. The current system used for case management, federal reporting, and provider management is the Children's Information Library and Data Source, known as CHILDS. CHILDS was originally implemented in 1997, and due to the age, complexity, and inefficiencies, DCS is unable to provide the best support for the caseworkers or the children and families that they serve. This particular presentation from DCS will focus on the Firewall and Security Controls portion of their project, and their proposed solutions.
